

SEN and Disability

Local Offer: Early Years Settings

Name of Setting: **St Andrew's 2byTwo and Pre School**

The Special Educational Needs and Disability (SEND) Reforms will place a statutory requirement on settings from September 2014 to make information available to parents about how the setting supports children with SEND. The information you make available will form the main basis of your setting's Local Offer.

This Local Offer template is designed to help you to pull together information so that parents of children with Special Educational Needs (SEN) or disabilities know what support they can expect if their child attends your setting. Your setting's Local Offer must be published on your website. Your website must include the name and contact details of your SENCO and the following link to the Local Authority's Local Offer:

www.standrewsprimary.com

The questions in the template are intended as prompts and reflect key issues that parents have told us they would like to know about when deciding which setting could best meet their child's needs. You may also wish to consult with your own parents about what to include in your Local Offer.

In developing your Local Offer you should be mindful that there is a requirement for a feedback facility to be available and for responses to be given to feedback received.

When you have added your Local Offer onto your website, please complete the following details and return the sheet by email to IDSS.SENDReforms@lancashire.gov.uk

When saving your local offer please use the following format:

LO-ST ANDREWS PRE SCHOOL-EY360866

Setting Name and Address	St Andrew's 2byTwo and Pre School		Telephone Number	01254 231279
			Website Address	www.standrewsprimary.com
Does the settings specialise in meeting the needs of children with a particular type of SEN?	No	Yes	If yes, please give details: As a setting we have supported children with a range of special educational needs	
	X			
What age range of children does the setting cater for?	2-3, 3-4 years			

Name and contact details of your setting SENCO	Mr Paul Burns
---	----------------------

We want to ensure that we keep your information up-to-date. To help us to do this, please provide the name and contact details of the person/role responsible for maintaining details of the Local Offer for your setting (this may be the SENCO, manager/supervisor or owner of the setting).

Name of Person/Job Title	Mr Paul Burns (SENCO)		
Contact telephone number	01254 231279	Email	p.burns@st-andrews.lancs.sch.uk

Promoting Good Practice and Successes

The Local Offer will give your setting the opportunity to showcase any good practice you have around supporting children with Special Educational Needs/Disabilities to achieve their full potential. If you have any examples of good practice or success stories, we would encourage you to include these on your Local Offer web pages. For reasons of confidentiality, please ensure you do not use any personally identifiable information when using case studies to illustrate your setting's experiences of supporting children with SEND.

I confirm that our Local Offer has now been published on the setting website.

Please give the URL for the direct link to your Local Offer	www.standrewsprimary.com		
Name	Mr P Burns	Date	04/09/2015

Please return the completed form by email to:

IDSS.SENDReforms@lancashire.gov.uk

The Setting

- What type of setting is it?
What age group does the setting cater for – 0-4, 2-4 0-4 and before/after school clubs etc?
How many children are you registered to take in which age groups? How are the age groups organised?
Who are the key staff? (room leaders, manager/supervisor, SENCO, person with responsibility for behaviour, PICO, ENCO etc.)

What the setting provides

The setting is a full day care setting. Places are available for children in two classes: 2-3 and 3-4 year olds. The setting is open Monday to Friday, 7:45am - 6:00pm, 51 weeks of the year. The setting is registered to take 20 children ages 2-3 years and 32 children aged 3-4 years.

There is a breakfast club, after school club and holiday club.

The setting is organised in to groups of children aged 2-3 and 3-4 years. There are two rooms, a forest area and play area outside. Each groups has a Key Worker and there are 6 Key Worker groups across the Units.

In addition to the Key Workers, the setting also has practitioners with additional responsibilities, these include; a named person with responsibility for supporting behaviour, a named person with responsibility for parental involvement, three nominated safeguarding officers and a SENCO.

The Headteacher of the school is the director and overall manager. She supports the nursery manager in the management of the business aspect of the setting and has overall responsibility.

Accessibility and Inclusion

- How accessible is the setting environment?
Is the building fully wheelchair accessible? Do you have accessible parking spaces? Have there been improvements in the auditory and visual environment? Are there accessible changing/toilet facilities? How do you improve access to the setting?
- How accessible is your information - including displays, policies and procedures etc.
Do you have information available in different font sizes, audio information, Braille, other languages etc. How does the setting communicate with parents and families whose first language is not English? How is information made accessible to parents and families with additional needs?
- How accessible is the provision?
How is the room organised, how can it be changed to meet the needs of children with SEND? How do you make use of resources such as symbols, pictures and sign graphics to support children's access to resources? Do you have furniture such as height adjustable tables or alternative ways of presenting activities so that children can access them?

What the setting provides

The building:

The setting is housed in a single story building. The building is wheelchair accessible from two entrances/exits. There is one accessible parking space at the front of the building. The building is accessed via a buzzer/intercom system at three entrance points.

There are two accessible toilets for children or adults in the building. There is a changing room.

There is natural/day light in the classrooms. The walls are painted cream and the skirting and architrave is black. The flooring is blue vinyl.

With the exception of the accessible toilets, and 4 exits all the internal doors around the building are standard door size. The doors to rooms have viewing panes at the top and bottom, doors to storage cupboards and toilets are solid; storage doors are secured with key pads.

There are parent information boards in the hall. These contain information about the setting, including some policies. The information boards also contain information about activities and events in the local area such as at the local children's centre. The information from other providers is only available in the format in which it is sent to us. For families who require it, we are able to make copies of policies available electronically, and some are on the website.

The rooms:

All the rooms have strip lighting and there are blinds on all the windows. The walls are painted in a pale colour with display boards mounted at adult height. The display boards are backed in bright colours to stand out from the pale walls. The floors are blue vinyl. Rugs are used in all the rooms to make comfortable areas for play and relaxation. All the rooms have a small kitchen area with wall and base units, sink and work top. There is a fridge for storing food/milk etc. Apart from the kitchen areas all the furniture is freestanding so can be moved and rearranged to make space for specialist equipment or to ensure the rooms are accessible for children using walkers or wheelchairs.

The tables and chairs are height adjustable. The sand and water trays are also height adjustable. The interactive whiteboard is fixed to the wall at children's height and moves up or down. For children's toys/resources, storage units are all at children's heights. Photographs and labels are displayed on the front of boxes so it is clear what is in them. Resources are organised in to areas of provision. In each area sign vocabulary is displayed so practitioners can refer to it when supporting children in play. Toys are resources are appropriate for children aged 2+ and 3+.

The Outdoors:

The outdoor environment consists of small grassed and a tarmac areas and a large field with a small adventure playground, forest area with mud kitchen and sand pit.

The tarmac areas are even and are suitable for children who use walking frames or wheelchairs. The grassed areas are generally flat but there is some natural unevenness in the ground. In the small outdoor areas there are raised beds for planting and growing herbs and vegetables.

The adventure playground and sand pit area is set on uneven ground. The adventure playground is made of brightly coloured metal and provides a good contrast. The sand pit area is sunken in to the ground. It is possible to provide sand play in a sand tray for children who are unable to access the sunken sand pit. Resources are taken outside on a daily basis and

are chosen and adapted to suit the needs of the children attending the setting.

Identification and Early Intervention

- How does the setting know if a child needs extra help and what should a parent do if they think their child may have special educational needs?
How do you identify children with special educational needs? (Refer to how you monitor children's progress - including the 2-3 year check)
How can a parent raise any concerns they may have?
How do you access additional advice and support? (Make reference to the setting's SEN/Inclusion policy and how this identifies the graduated response the setting follows).
- How are decisions made about how to support a child?
How do you determine and plan for additional support from within the setting? Describe the decision making process. Who will make the decision and on what basis? Who else will be involved? How will a parent/parents be involved?

What the setting provides

Children's progress is closely monitored in our setting. Each child has their own learning journey which includes annotated observations of them in nursery, observations and comments from parents/family and friends, tracking information about their progress across the areas of learning and development within the EYFS and information from 'Target Tracker'. More detailed information about learning journeys and what is in them is shared with parents when their child begins attending our setting. This is to ensure parents understand what they are, how they are used in nursery, what is in them and how parents can contribute to them.

Children's learning journeys are available for the children to access themselves and also for parents to look at any time they would like. Although a child's key person is available to chat to parents at drop off and pick up times, we make arrangements for the key person to meet with their parents each term to look at the learning journey and discuss progress and any concerns. Additional appointments can be made outside of these times to discuss any issues in more depth and more confidentially than is often possible at pick up and drop off times. If a parent would like to arrange to meet with their child's key person they can ask them and the key person will liaise with the room leader or deputy manager to make arrangements to be able to be released from the group at a convenient time. We also use an app called 'Tapestry' that parents can access all the time. Most of the Learning Journey is there and it links to our assessment systems.

In addition to the child's learning journey we also undertake the 2-3 year progress check. This is a requirement of the Early Years Foundation Stage (EYFS) and is done for all children in this age group. The EYFS requires us to report to parents on their child's 2-3 year progress check; discussing and identifying strengths as well as concerns. Where the progress check suggest that a child may be experiencing some difficulties or delay in their development this is shared with parents and options/appropriate next steps are discussed:

- For some children the next steps may involve the key person targeting a specific area of development and planning additional opportunities for the child to have experiences designed to support the area of learning and development identified. This enhancement and targeting links to the wave two interventions identified within our setting's provision mapping. This would then be reviewed to see how the child has progressed and whether or not additional steps need to be taken to support the child's progress and development.

- For other children the next step may also include developing a targeted learning plan where specific aims are developed with parents to support the child's development. We may also discuss with parents whether it would be appropriate to refer their child to other services such as speech and language therapy, this would require parental consent.
- Another next step may be to ask the local authority Inclusion Teacher to visit the child in the setting to provide some additional advice and guidance to practitioners to support them in meeting the needs of the child. This visit is called a 'Request for Guidance' and can only be undertaken with parental consent.

Our Special Educational Needs policy provides the context for supporting children through these 'next steps', this is referred to as the graduated response. Our SEN Policy is available in the setting.

In our setting we use provision mapping to identify ways in which we support all children in the setting. Provision mapping identifies what we provide for all children (wave one), for children who require a little bit of extra input in a specific area (wave two) and children who require more specialised or intensive intervention (wave three). You can see our provision mapping in setting.

We use provision mapping to identify ways in which children can be supported.

Teaching and Learning Part 1 – Practitioners and Practice

- How is teaching and learning developed in nursery?
Provide a brief overview of the context of the EYFS and the requirements within it – SEN requirements within the EYFS. Organisation of the setting – areas of provision, enhancements to areas of provision etc.
How is children's progress and development monitored? (Baseline assessments?, termly reviews?, parent & key person conferences?, 2-3 year development check)
What is the role of the key person for all children.
What are the setting's approaches to differentiation generally and for children with SEND?
- How will the early years setting's provision and staff practice support a child?
What is the role of the key person where children have additional needs/SEND and senior staff i.e. room leader, the role of the SENCO?
What is the setting's provision map and how is it used to support children learning and development? The use of TLPs to support children at Wave 2/3 of the provision map.
How will you match provision to the learning and development needs of a child with SEND?
- How will you help parents to support learning?
How do you explain to a parent(s) how learning is planned and how can parent(s) help support this outside of the setting? Which staff have a role in this and what is that role? i.e. PICO, SENCO, Key person?
Do you offer any parent training or learning events?
How do you find out about events provided by others and how do you let parents know about them?
- How is a child able to express their views?
How are children encouraged to express their views?
What resources or activities do you use that allow children to express their views?
What do you ask children for their views about?
How are children involved in the planning of their own learning and in reviewing their progress?

What the setting provides

The setting works within the framework of the EYFS. Each of the rooms within the setting are resourced according to the age phase and needs of the children within them. Practitioners use Development Matters and the Statutory Guidance for the EYFS to plan provision and activities for the children in their care. The EYFS identifies three prime areas of learning and development and four specific areas of learning and development.

In the 3-4 age phase the prime areas continue to be a focus but there is an increasing balance between focusing on supporting children's development in these areas and the specific areas.

Activities and provision are adapted to suit the needs of all children in each age phase. Practitioners differentiate the activities that they develop and the provision that is on offer in their rooms to meet the needs of the children in their group. For some children a greater level of differentiation is required because they have additional or special educational needs. Practitioners are sensitive to the developmental needs of the children in their care and when they are differentiating activities and provision have this in mind so that all children are able to access the setting in a way that is appropriate to their needs.

All children have a key person. It is the role of the key person to liaise with the child's parents regarding their time in pre school. It is also the role of the key person to help parents to develop ways in which they can support their child's learning at home. In our setting we hold information evening for parents when their child moves age phases. These sessions introduce parents to the EYFS and ideas for ways in which they are able to support, encourage and develop their child's learning at home. We have activity ideas and resources that parents can loan from our library and practitioners are able to talk to parents about these and offer ideas and advice should they want it. Parent information boards also display information about elements of early learning development and how this can be supported at home. There are also leaflets available that identify local groups and resources available to parents of young children in the area. Parents are able to speak to their child's key person or the deputy manager at any time if they would like further information or advice about supporting learning at home.

Children are encouraged to express their views about their own learning through their learning journey. Children are able to access their learning journey at any time and they are encouraged to share it with practitioners and each other. In addition to these informal opportunities to share the learning journey, once each term the key person sits down with the child and they look through the learning journey together. The key person talks to the child about the things they have done and annotates the journey with the child's comment. In our setting children are able to use digital cameras to take pictures of the things they have done in nursery, these can then be included in the child's learning journey and are available on Tapestry.

Teaching and Learning Part 2 - Provision & Resources

- How are the setting's resources used to support practitioners to meet children's special educational needs?
How does the setting determine what resources are available to support them in meeting the needs of children with special educational needs and disabilities?
How is the setting's funding allocated? If resources are required how are they sourced and purchased?
If additional staffing is provided, how is this organised?
How do you work with other professionals e.g. making key staff available to meet with/spend time with other professionals visiting the child? Provision Mapping
- What specialist services and expertise are available at or accessed by the setting?
Are there specialist staff working at the setting and what are their qualifications?
What other services does the setting access including education, health, therapy and social care services?
- How is a child included in activities outside the setting including trips?
What adjustment will you make to ensure a child is able to access the activities of the setting and how will you assist him or her to do so?
How do you involve parents/carers in planning activities and trips?

What the setting provides

Each age phase is provided with resources that are developmentally appropriate for that age group. We ensure there are resources available that overlap with the age phase below and above so that children who are developing more slowly or more quickly can access resources appropriate to their stage of learning and development. We use our provision mapping to help us to identify some of the resources and activities available to support children's needs

Where children require access to resources that are significantly different to the resources available within their age phase we make arrangements to share resources with younger or older groups. Where children need resources that are not usually available in our setting we endeavour to access these from loan facilities, support services or buy purchasing. We liaise with parents and outside professionals to ensure resources are appropriate for the needs of the child.

All practitioners are encouraged to work with external professionals who visit children in the setting, some will have more experience of this than others but they are supported by the SENCO and their Key Worker. For some children it may be the case that at specific times of the pre school day they require additional support. As a setting we endeavour to make reasonable adjustments provide this. We look to provide additional support flexibly using supernumerary staff if this is appropriate.

In our setting we like to plan trips and outings, all children are included in these. We undertake risk assessments of the places we intend to visit and consider the needs of the children who will be visiting. We make reasonable adjustments when planning trips and outings to ensure the places we visit are accessible and meet the needs of the children attending our setting.

Transitions

- How does the setting prepare and support a child to join the setting, transfer to a new setting or the next stage of education and life to ensure his/her well-being?
What preparation is there for the setting, parents and the child before he/she joins the setting?
How will a child be prepared to move onto the next stage?
What information will be provided to a new setting?
How will a new setting be supported to prepare for a child? (Use of access action plans when children have known needs that may require more significant planning)

What the setting provides

Before children start attending our settling we encourage parents to bring them for visits, though we appreciate that this is not always possible. Initially this may just be for the child to have a look around the setting with their parents. We plan with the parents some opportunities for the child to visit the nursery and spend a short amount of time in the age phase room they will be joining. We have a settling-in policy which is shared with parents when they register their child with us. The age phase leader or deputy manager will talk to parents about their and their child's preferences for a settling period and endeavour to meet these needs as best we can.

We have a comprehensive transition policy and procedure which we follow when children are ready to move age phases, leave pre school to attend a different setting or move on to school. This is available to parents within our setting. Policy and procedure includes additional factors that may need to be considered when supporting the transition of children with additional or special educational needs, to ensure this is as smooth as possible.

We have an open door policy and parents are able to drop in to the setting at any time. They are also able to contact us by phone if they would like to check in on their child!

Staff Training

- What training have the staff supporting children with SEND, had or are expected to have?
What number of staff hold what level of qualification?
How many staff are in training to move up to next level?
What level are the manager, SENCO, room leaders trained to?
Do you have any/how many staff with EYPS?
What experience does the staff team have of children with SEND? This should include recent and future planned training and disability awareness. In house and external training and 'on the job' experience including input from external professionals that has resulted in staff being 'skilled up' in particular areas.
Are there any staff (e.g. within chains of nurseries) that are available to support you? What qualifications/experience do they have?
Do any staff have any specialist qualifications?
Is the setting recognised/accredited as, for example, an 'I Can' nursery or does the setting have other quality assurance recognition related to SEND?

What the setting provides

Most practitioners in our setting are qualified to level 3 or above, with 3 staff qualified to level 2

and 3 to level 6. The Pre school manager is qualified to level 5, and there are 2 teachers in the setting. We have a regular programme of supervision and appraisals for all practitioners. We value opportunities to support their further professional development and they are encouraged to seek and are provided with opportunities for this.

Within our setting we have staff who have completed the following training courses:

ECaT
ASD Awareness
Makaton signing
Managing behaviour in early years settings

As a setting we also seek to support practitioners to further develop their knowledge and understanding of a range of additional and special educational needs. Practitioners have access to a wide library of resources and books. These are also available for parents to borrow.

We also make use of the local authorities Children First website to access information and e-learning modules such as CAF training.

Further Information

- Who can be contacted for further information?
Who should a parent contact to discuss something about their child?
Who else has a role in the education of each child?
Who can parents talk to if they are unhappy?
Does the setting have an open door policy?
What opportunities exist for discussions at drop off/pick up times?
Can appointments be made to see specific staff at specific times?
How can contact be made with specific staff (eg: Phone, text, email, notes, home-nursery diary etc)

What the setting provides

As a setting we are required to have a procedure for dealing with complaints. This is available to parents within the Pre School.
